Employment

Self-employed, May 2014—Present, Designer/Developer

I have been managing multiple clients, completing projects in media production and development. Examples include animation and programming for McDonald's digital training materials, building and programming websites for companies in industrial component industries, and producing videos for Northwestern University School of Law.

RVIBE, June 2012—May 2014, Designer/Developer

Acted as designer and front end developer for an enterprise video-streaming and information-sharing application suite.

Self-employed, January 2005— June 2012, Designer/Producer

Worked in the fields of front end development, web design, and motion graphics.

Magic Wedding Videos, February 2002—January 2005, Event Videographer

I launched a successful event videography company. I secured clients and sold videography packages. I shot and edited over 100 event videos, including documentation of event day, music video style montages, and photo slide shows set to music. Delivered final video products to clients on DVD with custom menus, disc labels and box art.

Clarity Visual Systems, February 2001—February 2002, Senior Production Artist

I designed and implemented animation content for digital sign displays. I also over-saw and provided training for the junior staff.

Self-employed, June 1997—February 2001, Designer

I worked as an independent designer on print, web and motion graphics projects for a variety of clients, including Jack Morton, Siren, Closerlook Creative, World Book Encyclopedia, and Ritchey Associates.

Closer Look Creative, June 1996—June 1997, Designer

Acted as designer, artist, project manager or programmer for a variety of clients, including Rand McNalley, Andersen Consulting and Dynatech Industries. Projects included design, graphics and animation for web, CD-ROM and video.
